PURPLESOC

Managed SOC | SIEM | Incident Response

Subscription-based SOCaaS for organizations needing enterprise-grade security operations without building a SOC in-house.

24/7 Monitoring	15 Min. MTTD	ISO 27001/PCI-DSS	Zero upfront cost

What is PurpleSOC?

PurpleSOC is PurpleGuard's fully managed Security Operations Centre, delivered as a monthly subscription. We combine SIEM, UEBA, threat intelligence, and 24/7 analyst coverage into one service so your organization gets expert-level detection and response without the cost of building an internal SOC.

Deployment Models

	Managed SOC	Co-Managed SOC	Self-Managed
Platform hosting	PurpleGuard	Customer	Customer
SOC operations	PurpleGuard	PurpleGuard	Customer
24/7 monitoring	PurpleGuard	PurpleGuard	Customer
Data sovereignty	Off premises	Full - on-site	Full
Infrastructure	None required	Server required	Server required
Best for	No internal IT infra	Regulated sectors	Internal SOC team

PURPLE GUARD
Smarter Security. Stronger Defense.

PURPLESOC

Managed SOC | SIEM | Incident Response

What's included?

+ SIEM - log collection, correlation and storage	+ Incident response / IR playbooks
+ 24/7 SOC analyst coverage	+ Monthly executive report
+ 500+ detection rules mapped to MITRE ATT&CK	+ ISO 27001 / PCI-DSS evidence packs
+ UEBA - user and entity behavior analytics	+ Dark web alert integration (PurpleSentry)
+ Threat intelligence enrichment (commercial + OSINT)	+ Escalation to PurpleVAPT on confirmed findings

Optional Add-on

Extend your visibility beyond the internal environment. **PurpleSentry** continuously scans the internet for threats targeting your organization before they reach your perimeter.

+ Dark Web Monitoring	Continuous monitoring of dark web forums, paste sites, and marketplaces for leaked credentials, exposed data, or mentions of your organization
+ Brand Protection	Detection of typosquat domains, fake social media profiles, and phishing pages impersonating your brand
+ External Attack Surface	Continuous discovery and risk scoring of internet-exposed assets, open ports, and misconfigured services across your digital footprint
+ Supply Chain Risk	Threat intelligence monitoring on key third-party vendors — alerts on breaches or exposures that may affect your organization
+ SOC Integration	PurpleSentry has a native, pre-built integration with PurpleSOC Incidents, IoCs, and audit logs push directly into PurpleSOC — external and internal threats correlated in one analyst console

PURPLESENTRY

SOCRadar® Your Eyes Beyond

Powered by SOCRadar. Available as a monthly subscription add-on to any PurpleSOC deployment.
